

5 CLASSIC CULT TECHNIQUES “GOVERNMENT” EMPLOYS TO CONTROL YOU

(AND 5 THINGS YOU CAN DO ABOUT IT)

ETIENNE DE LA BOETIE²

INTRODUCTION

You know something's not right...

Maybe it's because inter-generational organized crime controls every aspect of your life, while masquerading as your benevolent protector.

Powerful industries and families have been robbing and controlling society under the guise of "government" for centuries. Find out who they are and how they do it in "**Government**" –

The Biggest Scam in History Exposed. Etienne de la Boetie² reveals these international thugs, illuminates the abusive methods they favor, and provides practical solutions for humanity.

Here we summarize a few of these common threads, as well as a few of de la Boetie²'s best-laid solutions.

"Culture," as it turns out, is nothing but an illusion, perpetuated by a system of power and control. Knowing the features of this government-manufactured lie is half the battle.

Monopolized media, carefully curated social engineering, and cradle-to-grave indoctrination are some of the common threads weaving throughout all "governments," past and present.

But these mind control techniques are just the tip of the iceberg in terms of how "government" keeps us blissfully unaware and unempowered inside the cult.

1. MIND CONTROL

- Through an illusion of choice, constant repetition, and subliminal messaging, the media monopoly feeds citizens a picture of “reality” accepted as “culture.” This steady diet of state-sponsored information features spectacular, sensationalized “news” meant to distract and numb us to the reality of our servitude.
- Mandatory government schools turn would-be critical thinkers into order-followers who obey without question.
- Product placement and anchoring elicit worship from the populace. CIA-sponsored news coverage and sly camera angles present government leaders as heaven-sent saviors; Product placement and “anchoring” in movies and TV shows center our nation as the tireless, morally superior hero of the “free world.”
- Important details and events are sent down the “memory hole,” leaving events open only to government-sponsored interpretation.

2. CONTROL OF MOVEMENT AND FINANCES

The usury money system keeps the worker class spinning on a hamster wheel of impossible upward mobility.

- Overt and covert taxes decimate the value of currency, meaning we're stuck trading a lifetime of labor for ever-dwindling gains.
- Corporate food and drugs lull us into a fat, sick and near-dead existence.
- State codes and laws, militarized law enforcement, and the prison industrial complex prevent us from interacting socially and commercially in liberty with our fellow man.

3. GASLIGHTING

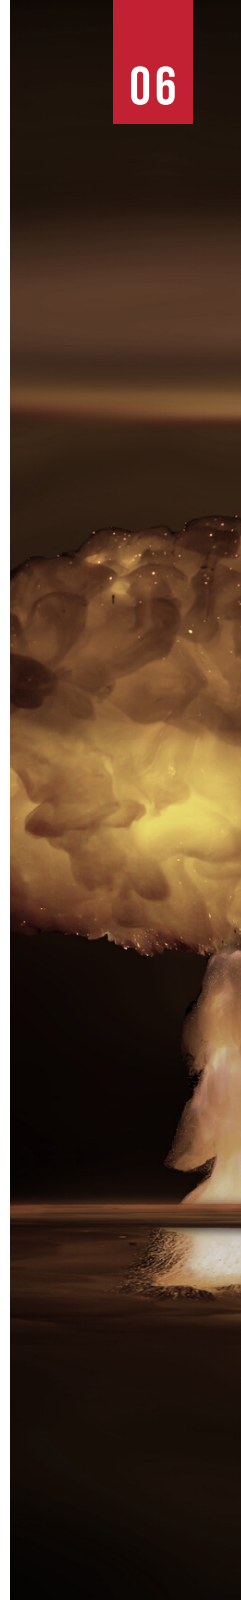

Total dependency on the cult, and fear of leaving it, are fostered with exorbitant salaries and pensions for government employees, teachers, military, and police that most couldn't get in the private sector; crippling fines, taxes, and even criminal convictions are imposed upon those who step out of line. "Safety net" systems that would be better provided through private means are promoted as the only way to care for those in need.

- The captured media and its manufactured "culture" result in a matrix of confusion. Censorship and weaponized dictionary definitions work hand-in-hand with this media control to give us the impression that our ideas are separate from reality.
- Our founding documents are exalted, while our actual "rights" are snatched away and given back at the whim of officials using the "emergency" du jour to justify their actions.
- Critical thinkers are made to feel crazy for doing their own research or suggesting something is wrong.
- There is a revolving door between industry and the regulatory agencies thought to control them, meaning our abuser is also our protector.

4. PHYSICAL ABUSE

Bombings, mass shootings, and other false flag attacks end thousands of lives each year.

- Big Pharma, Big Ag, and Big Food take our happiness, health, and vitality in exchange for bigger profit margins.

5. ISOLATION AND SURVEILLANCE

Trumped up race wars and political division isolate us from our fellow humans, while constant surveillance tracks our movements, contacts, and even our ideologies.

- The majority fallacy causes us to self-isolate from those with whom we could combine forces and uncover the truth.
- Fear of alienation keeps us from examining inconsistencies too deeply. Much like cults label dissenters “apostates” doing the Devil’s work, government subjects fear being labeled a “conspiracy theorist,” preventing us from seeking out and sharing the truth.
- The DARPA internet and captured social media watch our every move.

PENTAGON KILLS LIFELOG PROJECT

THE PENTAGON CANCELED its so-called LifeLog project, an ambitious effort to build a database tracking a person's entire existence.

Run by Darpa, the Defense Department's research arm, LifeLog aimed to gather in a single place just about everything an individual says, sees or does; the phone calls made, the TV shows watched, the magazines read, the plane tickets bought, the e-mail sent and received. Out of this seemingly endless ocean of information, computer scientists would plot distinctive routes in the data, mapping relationships, memories, events and experiences.
